EDUCATION

Indian Institute of Information Technology Vadodara

B.Tech CSE

CGPA: 7.6/10

Vadodara, Gujarat

2024—2028

SUMMARY

Full-stack developer with strong proficiency in MERN stack and frontend engineering. Experienced in building scalable, responsive web and mobile applications with React, Node.js, and modern UI frameworks. Skilled in backend API development, authentication workflows, and cloud deployments. Interested in LLM integration and RAG pipelines, with growing experience in AI-driven features. Seeking SDE / Full-Stack / Frontend intern roles.

PROJECTS

BiteRite

[Github](#)

Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS, Clerk Auth

Built the Community Forum enabling users to create posts, upload images, comment, and interact boosting user engagement features across the app. Implemented onboarding and preference forms with responsive UI and validation, improving user flow consistency by 30%. Integrated frontend with backend APIs for posts, comments, and profiles, ensuring reliable real-time updates and smooth data handling. Refactored components and state logic, reducing redundant UI code by 25% and improving maintainability.

Food Waste Management Mobile App

[Github](#)

Tech Stack: React Native, TypeScript, Tailwind CSS, REST APIs, Maps & Geolocation

Built a cross-platform mobile application with real-time location tracking and donor-receiver matching; reduced match time by 60%. Implemented reusable UI component library using Tailwind CSS, improving development speed by 35%. Integrated Google Maps + Geolocation APIs to enable live location updates with 200ms average latency. Ensured seamless connectivity with backend REST APIs for authentication, routing, and data sync.

Resume Builder Web App

[Live Github](#)

Tech Stack: HTML, CSS, JavaScript, React, Vite, jsPDF

Created a responsive full-stack app generating ATS-compliant PDFs using jsPDF; enabled users to download resumes in seconds. Implemented multi-template selection, real-time preview, form validation, and automatic layout scaling. Improved load time by 45% via Vite's optimized bundling and clean component architecture. Focused on accessibility (a11y), mobile responsiveness, and SEO best practices.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Python, C++, SQL, HTML5, CSS3
Frontend	React.js, React Native, Tailwind CSS, Vite, Responsive UI, Figma
Backend	Node.js, Express.js, REST APIs, JWT Auth, Middleware, Routing
Databases	MongoDB, SQL
AI/ML	NumPy, Pandas, Scikit-learn, Basic LLM API Integration
CS Fundamentals	DSA, OOP, OS Basics

ADDITIONAL EXPERIENCE

- **Competitive Programming** – Solved 350+ DSA problems across platforms. [Leetcode](#) · [Codolio](#)
- Active coding profile on Codolio, with regular participation in challenges and skill-tracking contests
- Engaged in student tech communities and workshops focused on MERN stack development and Git workflows.
